

# *Contura*

Stoves for fireplaces

It is quite simply, quality of life.

## Energy labelling

The European Union's Energy Labelling Directive establishes a framework to reduce adverse environmental impacts of energy-related products and helps you choose the most energy-efficient products. Woodburners in the A energy efficiency category offer high efficiency and thus low running costs.

This is what Contura means by comfort with a clear conscience, both today and in the future.

## Quality, quality of life and comfort

Superior quality is a hallmark of Contura throughout its entire life, from production of a stove to its installation—and all the years it fills your home with light and heat. At Contura, we're proud of our tradition of innovative design and technology. The soul that we incorporate into all of our stoves stands for quality, assurance and home comfort.

### CONTURA 330

SHOWN WITH

- Efficiency: 82 %
- Height: 730 mm
- Width: 460 mm
- Depth: 360 mm
- Max. log length: 33 cm
- Energy classification: **A<sup>+</sup>**

## Contura 51L

# Cast iron for ever and a day

Who doesn't love cast iron? The easily formed, tough and beautiful material has been used for so many appliances through our history. Things that should be really stable, strong and heavy are made of cast iron – manhole covers and Grandma's frying pan, for example. This is the tradition behind Contura's tough and modern cast iron stoves.

### Features

- Swedish design
- Versatile, small and robust
- Heats for a long, long time.
- Heats up to approx 120m<sup>2</sup>

### Select Options

- Hotplate
- Extra handle matt chrome or black

- Height: 590 mm
- Width: 490 mm
- Depth: 350 mm
- Max. log length: 25 cm
- Energy classification: **A**

## Contura i5L

# Clean lines and large glass areas

Contura i5 with panorama door gives the fire a lot of space. The largest possible glass surfaces enable the fire to be seen clearly. The clean lines blend into your home.

Contura i5L has additional cast iron legs for positioning in a fireplace recess. A two chamber damper means that the cassette burns cleanly and the glass is kept soot-free.

### Features

- Swedish design
- Heats for a long, long time.
- Large glass front
- Heats up to approx 120m<sup>2</sup>

### Select Options

- Available in Black or Grey

- Finned grille that covers the opening around the cassette.

### Specifications

- Output: 5 kW
- Efficiency: 78 %
- CO value: 0,1 %
- Height: 530 mm
- Width: 550 mm
- Depth: 433 mm
- Max. log length: 35 cm
- Energy classification: 

## Contura 330

# Mix and match with a log box

The generous glass door frames your fire beautifully. The door strikes a modern note and opens easily with a handle that doesn't get hot.

The Contura 330 firebox is at floor level. This stove can be assembled with and placed on three sizes of log box (see page 3).

Mix and match to create a stove to suit your home and wishes.

### Features

- Swedish design
